Property Description

New Build Villa Playa Fustera for sale on Costa Blanca.

NEW BUILD VILLA IN BENNISA Newly built luxury villa for sale in Benissa, Costa Blanca. Luxury villa in Benissa, modern architecture with infinity pool 13x4.5m. This villa is built on a large flat plot with sea views. It has 4 bedrooms and 4 bathrooms, solarium of 197m2, basement of 205m2. It also has outdoor parking for 2 vehicles, with a stamped concrete cladding, covered with a designer sail canopy. From the parking area, access to the ground floor is through a front door of the property with a fixed side safety glass.

From here there is access to the large double-height living room in which the designer staircase in steel beam is located, with floating wooden steps and a glass railing that gives access to the first floor. On the ground floor there is a guest toilet, a large laundry room with access to the outdoor terrace, a bedroom with fitted wardrobes and en-suite bathroom and a large closed kitchen. The entire ground floor has ceiling windows that give lots of light and access to the large terraces and pool area. On the first floor there are 3 bedrooms and 2 bathrooms, all with access to terraces, one of them with external stairs leading to the 197m² solarium. All bedrooms have fitted wardrobes. From all the rooms on the first floor you have access to a large terrace and garden with spectacular views and an infinity pool, as well as a chill-out area with outdoor fireplace in the garden. The basement has a large open space where you can build a cinema, gym, etc. In the equipment of this villa we highlight the latest technologies installed throughout the house. Such as the home automation system controlled by voice and from the mobile APP for the alarm system. Complete installation of air conditioning ducts. All the mechanisms necessary for the installation of zoned air conditioning, generated by air technology, on the ground floor and upstairs. Ability to connect Airzone with the smart home system and with Alexa. Installation of electric underfloor heating on the ground floor and first floor. Mechanical ventilation system in the bathrooms and kitchen, air renewal and smoke extraction. Production of domestic hot water by means of the Aerothermal system, in compact units. Porcelain stoneware tiles throughout the interior of the house. In damp areas, such as shower floors, they will be non-slip. Similarly, non-slip tiles will be installed in the exteriors and the solarium. In the kitchen, the island and worktop are made of Silestone in the shade of grey, with a glass panel in the front area of the worktop in the same tone. Fully equipped kitchen of top brand Küchenhouse, Parcélanos or similar. Bathrooms fully equipped with high quality equipment. Video intercom. Installation of interior lighting with integrated LED halogens, indirect lighting with LED bars recessed in ceilings and frames, in passageways and other rooms. Connections prepared for the installation of pendant lamps in the living room and kitchen. Peripheral outdoor lighting consisting of designer LED wall lights on the exterior façade and parking area, and ground lighting in the terrace and pool areas. Landscaping consisting of areas of natural grass and plants native to the area (olive trees, palm trees, orange trees, lemon trees...). Fence of the land consisting of a block wall covered with dry stone masonry. The villa is located in one of the most beautiful residential areas on the Costa Blanca. The towns of Calpe, Benissa and Moraira offer an extraordinarily attractive coastline of great scenic and ecological interest, with a rugged coastline with many hidden beaches and coves. Benissa is located between Valencia and the city of Alicante. Valencia's Manises Airport is an hour's drive away and Alicante's L'Altet Airport is a 50-minute drive away. Both of these airports are major international airports served by a large number of low-cost airlines.
