Property Description

Modernised farmhouse with just over 10 acres of land, concrete yard area, barns and pond

This house has been renovated since 2005 by the present owner, it had a new synthetic slate roof, kitchen, bathroom at the time and the loft was insulated in 2019. It is in a small rural hamlet at the end of a no

through road. The land is fenced for sheep. In the lower field there is a stream providing drinking water for livestock. The pond is spring fed and for private use only. The concrete yard is excellent for animal keeping and the barns are functional for livestock. The property lends itself to use as an animal sanctuary, for equine use or a smallholding.

The house is in Calvados in the Normandy region of France. Local facilities can be found at Saint Sever (6km) and the nearest major towns are Villedieu-les-Poêles (15km) and Vire with SNCF railway to Paris in about 2 hours 50 minutes. The UNESCO site of Mont St Michel is 36 km away, Coutances Cathedral (38 km), Bayeux Tapestry (Musée de la Tapisserie de Bayeux) (59 km), and the D-Day Landing Beaches (64 km).

Buying French Property Just Got Easier...

The purchase process typically starts once you've visited a property with one of our agents and you made an offer on a property. Once your offer has been accepted, the property will come off the market and our local bilingual expert will liaise with you and the notaire. The compulsory searches are at the charge of the owner / vendor and are carried out at this stage.

You would have already been informed about the property taxes and legal fees (that incl. the stamp duty). The agency fees are already included in the listed price on this document, there's no premium for the superior service we offer. You don't have to pay the deposit until the 'pre-contract' has been signed, and the 10 days calling off period has expired. It takes an average of three months to buy a property in France.
