Property Description

Unique detached house with separate brick built house to renovate with nearly 3/4 acre garden

This property has been renovated by the present owners over the last 20 years - it has been re-wired, had new plumbing and bathrooms, new windows and oil fired central heating during that time. It would now benefit

from further modernisation and re-decoration. The separate detached house would require complete renovation. The park like gardens surround the property on all sides. Viewing is highly recommended to appreciate the potential of the property.

The property is situated in the Orne department (Normandy region) in the north of France at 66 km from Alençon, the department capital. The nearest large town is Flers (9km) with all its many amenities, supermarkets, restaurants, boulangeries, hospital and the mainline train station with daily trains to Paris. The ferry port of Ouistreham is 91km, Cherbourg is 152 km and Calais 426 km.

Buying French Property Just Got Easier...

The purchase process typically starts once you've visited a property with one of our agents and you made an offer on a property. Once your offer has been accepted, the property will come off the market and our local bilingual expert will liaise with you and the notaire. The compulsory searches are at the charge of the owner / vendor and are carried out at this stage.

You would have already been informed about the property taxes and legal fees (that incl. the stamp duty). The agency fees are already included in the listed price on this document, there's no premium for the superior service we offer. You don't have to pay the deposit until the 'pre-contract' has been signed, and the 10 days calling off period has expired. It takes an average of three months to buy a property in France.
