Property Description

Ideally located in one of the most emblematic condominiums in Ivry, this loft developing 124.88m² Carrez (152m² on the ground) is located on the second and last floor of what was once a factory for manufacturing high-frequency TSF sets.

The bright horizontal bays surrounded by black mark this place with the industrial imprint of the 1950s and a timeless and popular architectural style.

Access to the loft is via an exterior metal staircase, an authentic testimony to the exceptional industrial past of this building.

From the entrance with storage, a small connecting corridor leads to a 13m² master suite with an independent dressing room of 7m². A large bathroom with a walk-in shower and a double sink unit as well as an independent bathroom are available on this level while a first room used as a child's bedroom completes this sleeping area.

The end of the corridor leads to the masterful living room totaling 48m². The cathedral ceiling height of more than 3.5 meters is enchanting and increases the feeling of space within this reception area. The Eiffel structures act like abstract graphic lines and give this place a resolutely industrial imprint. The tastefully fitted and equipped open kitchen has a central island of the best effect, combining sobriety and practicality in a concern for good minimalism.

A spiral staircase made of metal and wood leads to the upper level housing an open and attic relaxation area of 14.5m² on the ground overlooking the main living room. Three rooms used as children's bedrooms, also attic, measuring 10m² and 13m² on the ground, are also accessible on this floor and each have Velux windows guaranteeing excellent light.

A secure parking space in the condominium's closed garage is also included.

The enclosed gardens of the common areas have been designed with sharing and accessibility in mind.

Large landscaped green spaces are available for everyone for a chosen moment of relaxation or even special moments with family or friends.

Ping-Pong table and other barbecues are self-service and promote living together of rare quality.

These secure green spaces act as green oases in which adults and children interact in complete freedom. A haven of tranquility in the center of Ivry sur Seine and a few minutes from the capital.

Built in 1952 on the site of a former rubber retreading workshop, this factory for manufacturing TSF sets will also work on the manufacture of the first television sets from 1958.

The factory was subsequently rehabilitated into housing and a place of creation while retaining the soul and the 'Mid Century' architecture acclaimed as one of the most elegant of the 20th century.

Buying French Property Just Got Easier...

The purchase process typically starts once you've visited a property with one of our agents and you made an offer on a property. Once your offer has been accepted, the property will come off the market and our local bilingual expert will liaise with you and the notaire. The compulsory searches are at the charge of the owner / vendor and are carried out at this stage.

You would have already been informed about the property taxes and legal fees (that incl. the stamp duty). The agency fees are already included in the listed price on this document, there's no premium for the superior service we offer. You don't have to pay the deposit until the 'pre-contract' has been signed, and the 10 days calling off period has expired. It takes an average of three months to buy a property in France.
